About Me

Motivated web/software developer with hands-on experience in frontend and backend development through a 480-hour internship at Strastan Solution Corporation. Experienced in React, Next.js, TypeScript, Tailwind CSS, AWS, github and frontend accessibility optimization. Worked on real-world production components involving messaging systems, notification systems, reusable UI architecture, and frontend performance improvements. Passionate about learning modern web technologies, improving user experience, and building maintainable software solutions in collaborative development environments.

BIG 5 (OCEAN) PERSONALITY TEST RESULT

- O** Your score on Openness to Experience is high, indicating you enjoy novel, variety, and change. You are curious, imaginative, and creative.
- C** Your score on Conscientiousness is high. This means you set clear goals and pursue them with determination. People regard you as reliable and hard-working.
- E** Your score on Extraversion is low, indicating you are introverted, reserved, and quiet. You enjoy and solitary activities. Your socialization tends to be restricted to a few close friends.
- A** Your high level of Agreeableness indicates a strong interest in others' needs and well-being. You are pleasant, sympathetic, and cooperative.
- N** Your score on Neuroticism is low, indicating that you are exceptionally calm, composed and unflappable. You do not react with intense emotions, even to situations that most people would describe as stressful.

WORK EXPERIENCE

Full stack Developer - Strastan Solution Corporation

2026

- Worked on frontend and backend development tasks using React, Next.js, TypeScript, Tailwind CSS, and AWS services
- Refactored and optimized frontend components including messaging systems, notification systems, chat features, and reusable UI components
- Improved frontend accessibility through semantic HTML, keyboard navigation support, aria-label handling, and screen reader compatibility
- Implemented frontend rendering optimizations using React hooks such as useMemo and useCallback
- Worked with AWS services including API Gateway, Cognito, and cloud development workflows
- Collaborated with teammates using Git workflows including branching, commits, pull requests, and version control practices
- Assisted in frontend-backend API integration, data fetching, debugging, and maintainability improvements
- Participated in development environment setup, dependency configuration, and cloud infrastructure learning using AWS CDK

Software Developer - Barangay Siblot, Philippine Pangasinan

2024

- Made an ASL Management System Software registry on barangay inhabitants (Coded Front-end).

Community Service (Excel Support) - School Faculty

2026

- Assisted school faculty with Excel tasks such as data entry, formatting, and basic spreadsheets.

Web-Based quality assessment of Leghorn Eggs

2025

- Contributed to the development of a web-based system for automated Leghorn egg quality assessment aimed at improving food quality awareness for local consumers
- Build, integrated an AI image classification model using MobileNetV2 to analyze user-uploaded egg images
- Participated in dataset preparation, including image preprocessing, augmentation, and labeling for model training
- Implemented data collection, preprocessing, augmentation, and model training using classification and regression approaches
- Assisted in Building a user-friendly interface that supports image upload, model inference, and confidence score display

Software Developer - Hotel Management System

2025

- Developed login, registration, and role-based access control (RBAC) features.
- Integrated frontend components with backend APIs for authentication and user management.
- Implemented responsive UI components
- Collaborated with the development team to test, debug, and improve application functionality.

EDUCATION

Hansel and Gretel School of Cavite

2005-2012
Most Behave (Kinder to Grade 6)

University of Perpetual Help Molino Campus

2013-2015

Imus Institute of Science and Technology

2013-2015
STEM Graduate, With Honors and Most Behave

Adamson University

2019-2026

Computer Science Degree

COMPUTER SKILLS

- Next.js
- TypeScript
- JavaScript
- Tailwind CSS
- HTML
- CSS
- Node.js
- AWS (API Gateway, Cognito, CDK)
- Git/GitHub
- REST API Integration
- Frontend Accessibility
- Responsive UI Design
- MySQL
- 106 wpm
- Vercel
- React + Vite
- Supabase

PROGRAMMING LANGUAGES

- Javascript
- Typescript
- CSS
- HTML
- Java
- C#
- C++
- Python
- Php

BUILT

- Notification System
- Chat System
- Login/Register System
- Real time Dashboard
- Email System
- Realtime Dashboard
- Search System
- Role-permissions System
